Python

Create and run python program

Saurabh Shukla (MySirG)

Agenda

① Write your first Python program.

② Using vs code

Write your first Program
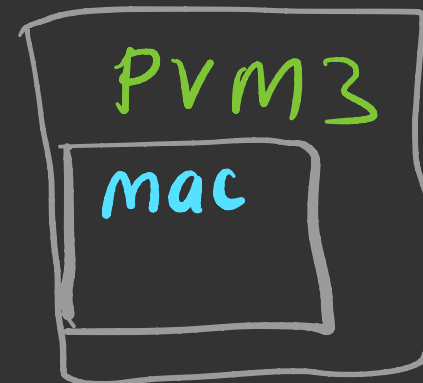

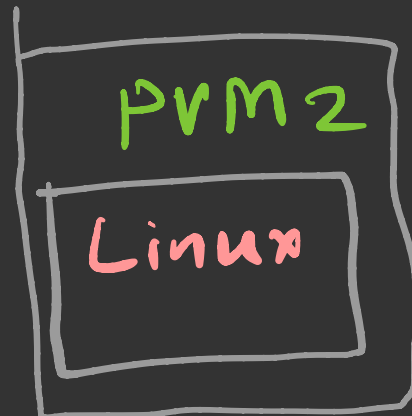

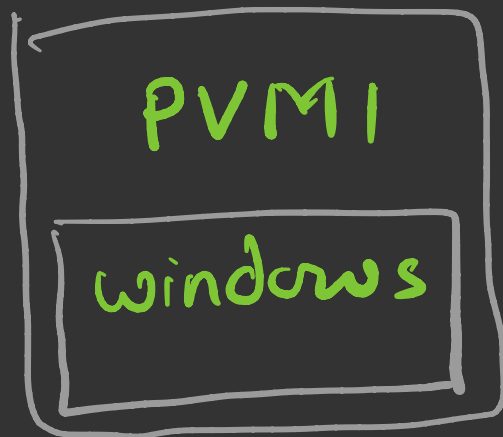

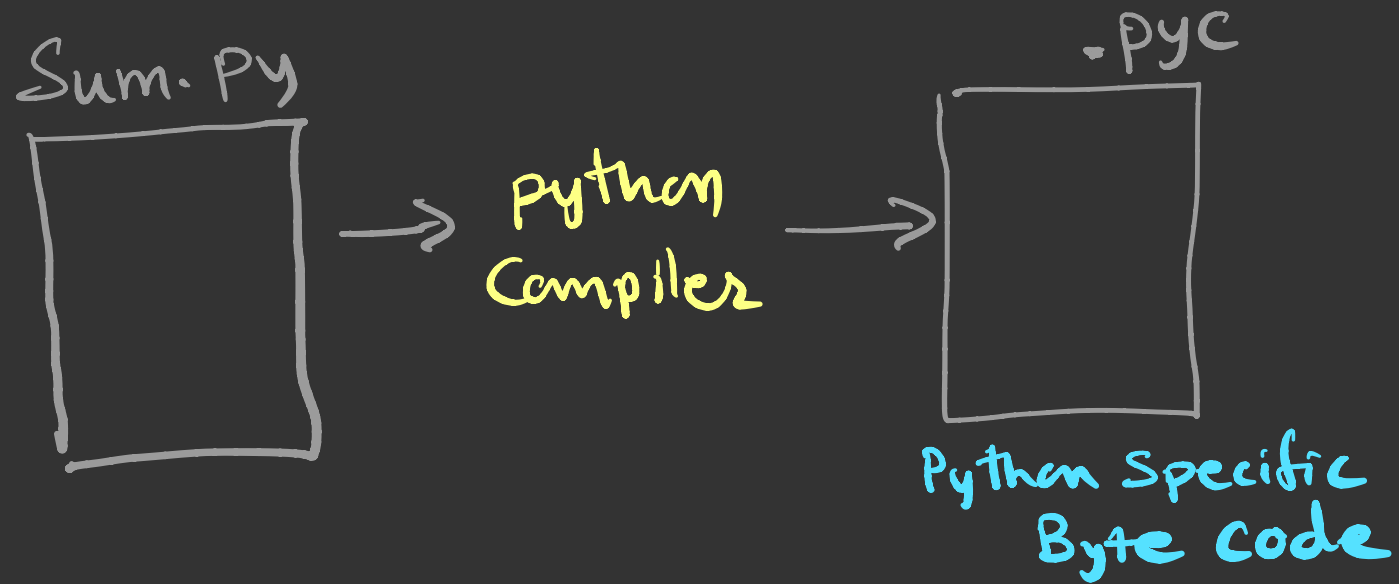

First.py

```python
print("Enter two numbers")
a = int(input())
b = int(input())

c = a + b
print("Sum is", c)
```

Using VS code

① Create source file using vs code
   → Open VS code
   → Create new .py file
   → Write program

② Run through vs code
   → Output will come on terminal

How to develop a software using Python?

Sum.py → Python Compiler → .pyc

Python Specific Byte Code

PVM1
windows

PVM2
Linux

PVM3
mac

How to create .pyc file ?

① Automatically created for imported module

② using command

> python -m filename.py compile

> python -m compileall
